Mr. Greg Adamson
The DRB Group, Inc.
c/o Overlook Hospital, Engineering Dept.
99 Beauvoir Avenue
Summit, NJ 07902

Dear Greg:

I wanted to thank you for your order of the USES Line Rover unit installed at Overlook Hospital.

In the past two years, as Marketing Director in the Northeast for the USES system, we have obtained our successes by demonstrating substantial savings to the myriad users of "inductive" loads – i.e. motors, pumps, elevators, machinery, etc. Your engineering expertise has introduced to me an entirely new area for the application of the unique patented technology of the USES system, consequently, through your efforts, other USES marketing groups (Chicago, San Francisco) have discovered an exciting new avenue for them to pursue.

Thank you for your extraordinary contribution!

Sincerely,

Art Meyer
For the
USES System
