ATTN: Steve Simmons

Dear Steve,

Just a short note to tell you how pleased we are at Gordon Mfg. is with the USES units we've installed. We installed four USES units in our plant and have seen an almost 9% drop in energy use. More importantly we've had 0% downtime on our machines that have a high sensitivity to electric noise.

Thanks for providing a product that delivered what your sales pitch said it would.

Sincerely,

Peter H. Withof
In Charge of Maintenance
