

**Limited Three-Year Warranty for Pure Power Institute  
Phase Balance PB-DELTA and PB-RDES Units**

The PBDelta and PB-RDES Units have a limited three-year warranty by the Pure Power Institute to the original end-user, against defects in material and workmanship when purchased from an Authorized Dealer. The limited warranty will cover the internal operating parts of a new unit against operational failure. During the limited warranty period, Pure Power Institute will repair, at their option, or replace a defective unit at no charge. Any repairs, alterations, additions or adjustments by others, unless authorized by Pure Power Institute, will terminate all obligations under this warranty. This warranty does not cover labor, materials or replacement resulting from Acts of God, fire or water damage or any other cause beyond the control of Pure Power Institute. This warranty is null and void if the unit has not been installed by a licensed electrician to the Pure Power Institute specifications. Any tampering with circuits or seals of the unit shall void the warranty. When returning the unit to an authorized dealer of Pure Power Institute, the unit must be properly packaged to avoid damage during shipment. The package shall be shipped with delivery charges prepaid. The shipper is responsible to insure the package for full replacement value. The shipper shall also prepay all costs to cover return shipment and handling charges.

Except for the expressed warranty set forth above, Pure Power Institute grants no other warranty, expressed or implied, by statute or otherwise, regarding these products, their fitness for any purpose, their merchantability, their quality or otherwise. Pure Power Institute's liability, under any theory, shall be limited to the refund of the purchase price. In no event shall Pure Power Institute be liable for the cost of procurement of substitute goods, or for any incidental, special or consequential damages under any theory of liability.
